

Requirements Analysis Document

Sabatino Raffaella

September 8, 2026

Version: 1.0
Version date: September 8, 2026

Version History

Version number	Revision date	Description of change
0.1	September 8, 2026	Initial version of the requirements analysis document.
0.2	September 8, 2026	1° version of use cases.

Contents

Version History	2
1 Introduction	5
1.1 Project overview	5
1.2 Scope	5
1.3 Brief description of PriceChecker	5
2 Use Cases	5
2.1 UC-01 Add product	5
2.2 UC-02 Monitor product price	5
2.3 UC-03 Set discount threshold	5
2.4 UC-04 Receive price notification	5
2.5 UC-05 View monitored products	6
2.6 UC-06 View price history	6
3 Use Case Scenarios	6
3.1 UC-01 Add product	6
3.2 UC-02 Monitor product	6
4 System Requirements	7
4.1 Functional requirements	7
4.2 Non-functional requirements	7
5 Data / Domain Model	7
5.1 Products	7
5.2 Price records	7

5.3	Notifications	8
6	Constraints & Design Decisions	8
6.1	Chrome extension	8
6.2	React dashboard	8
6.3	Parser architecture	8
6.4	Storage	8
7	Future Requirements	8

1 Introduction

1.1 Project overview

1.2 Scope

1.3 Brief description of PriceChecker

2 Use Cases

2.1 UC-01 Add product

2.2 UC-02 Monitor product price

2.3 UC-03 Set discount threshold

2.4 UC-04 Receive price notification

2.5 UC-05 View monitored products

2.6 UC-06 View price history

3 Use Case Scenarios

3.1 UC-01 Add product

Preconditions

Main scenario

Alternative scenarios

Postconditions

3.2 UC-02 Monitor product

Preconditions

Main scenario

Alternative scenarios

Postconditions

4 System Requirements

4.1 Functional requirements

4.2 Non-functional requirements

5 Data / Domain Model

5.1 Products

5.2 Price records

5.3 Notifications

6 Constraints & Design Decisions

6.1 Chrome extension

6.2 React dashboard

6.3 Parser architecture

6.4 Storage

7 Future Requirements

User must be able to view price history and changes. User must also be notified if there are any discounts/price drop on watched products.
